

Company Profile

Artificial Lawn Supplies is a privately owned Perth based company specializing in Synthetic Grass Installation, including design and construction of base works for the commercial sporting fields such as Hockey, Soccer and Synthetic Bowling Green construction within Western Australia.

The most important beliefs for our company policy, so we can deliver to the client is; **Honesty – Integrity - Accountability**

The company has extensive experience and has been operating in WA for more than 10 years, providing services to various sectors such as:

- Construction of Multi Sport Surfaces within Schools.
- Construction of Hockey Fields.
- Construction and Installation of Synthetic Tennis Courts.
- Design and Construct of Synthetic Bowling Greens.
- Residential Installations of Synthetic Grass.
- Project Management of recent Hockey Field Construction and refurbishments within W.A.
- We offer full maintenance programs with specialized machinery for Hockey Fields, Synthetic Soccer Fields, Bowling Greens and Tennis Courts.

On our projects we are committed to the establishment of a co-operative and successful working relationship with all the parties involved in the projects. We are familiar and comfortable with the obligations and responsibility of working with municipal councils and government organizations.

Our projects have all run on time, to schedule and also include a maintenance period after practical completion. We have maintained these projects successfully during this period and have since handed over these projects to the relevant councils providing maintenance manuals, as constructed drawings and training.

Our Values

Our mission is to provide unrivalled service and quality to all our stakeholders throughout the entire life of all projects.

Key to achieving these goals are:

- **Safety First**

Creating a safe environment for all clients and staff

- **Communication**

We operate a full open door policy, with all clients and staff has access to all levels of management at any time. The overwhelming majority of problems are solved by simple communications.

- **Integrity**

We must be fair, open and transparent in all our business dealings.

- **Innovation**

We seek the latest and most effective way of delivering our services. The world is evolving adapt or perish.

- **Best Practice**

We are committed to using standard operating procedures to consistently achieve the highest quality of service delivery and have those procedures externally assessed regularly.

- **Training and continuous improvement**

All staff undergoes regular training and development, which is reviewed biannually. All clients are afforded the opportunity to critique our performance.

Our Operational Approach

Our value proposition must and does reflect our core values. We achieve the following;

- **Safety** via training and up skilling staff, an open door policy and clear communication with stakeholders.
- **Integrity** via fixed quotations, written contracts, inspection test plans and constant communication.
- **Innovations by treating each project** uniquely by finding a tailored solution no matter how bizarre.
- **Best practice** by operating too and not lowering our standards even where the regulatory framework may permit.
- **Standard operating procedures** are constantly being deployed and redeveloped to ensure consistently high quality outcomes.
- **Training and continuous improvement** by ensuring all staff undergoes regular training and development, which is reviewed annually.

We operate a blend of staff, consultants and core subcontractors. These personnel are carefully selected and graduate through a performance based training system. Artificial Lawn Supplies does not engage ad hoc subcontractors.
